AVOCAN

Proverbs 3:5

ADAPTORS ACCESSORIES

MINING ACCESSORIES & COMPONENTS

PRIMARY PURPOSE

Adaptors are used to join hex tubings with vacuum drill bits, creating a secure and reliable connection for drilling applications.

TYPICAL USE

Used in drilling assemblies where hex tubing must connect correctly to vacuum drill bits.

- Secure connection between components
- Supports efficient drilling operations
- Durable construction for mining conditions

AVOCAN

Quality is a priority.

AVOCAN

Proverbs 3:5

ROOF BOLTING SPINNING ADAPTORS

MINING ACCESSORIES & COMPONENTS

01 PRIMARY PURPOSE

Spinning adaptors are used to install roof bolts during underground roof support operations.

02 TYPICAL USE

Used with roof bolting equipment to connect and rotate roof bolts efficiently during installation.

EFFICIENT ROOF BOLT INSTALLATION

ACCURATE FITMENT FOR BOLTING EQUIPMENT

BUILT FOR UNDERGROUND BOLTING CONDITIONS

AVOCAN

QUALITY IS A PRIORITY.

AVOCAN

Proverbs 3:5

PINCH BARS

MINING ACCESSORIES & COMPONENTS

PRIMARY PURPOSE

Pinch bars are used to bar down hanging walls and loose material to improve underground safety.

TYPICAL USE

Used by mine workers to remove loose rock and unstable hanging wall material before work continues in the area.

IMPROVES UNDERGROUND SAFETY

PRACTICAL TOOL FOR BARRING DOWN

ROBUST DESIGN FOR MINING ENVIRONMENTS

AVOCAN

Quality is a priority.

AVOCAN

Proverbs 3:5

CABLE HOOKS

MINING ACCESSORIES & COMPONENTS

01 PRIMARY PURPOSE

Cable hooks are used to hook and support cables in underground mining areas.

02 TYPICAL USE

Used to suspend and organize cables securely to help keep mining work areas neat and safe.

- Strong holding capacity
- Rugged construction
- Useful for cable management

AVOCAN

Quality is a priority.
